RECORDING *EVERYTHING MUST GO*

PHOTO BY WYATT

Elliot Scheiner recently used LA's new Cups 'N' Strings Studios for preparation of the original Steely Dan *Gaacho* (1979-80) multitrack analogue masters for release this year in 5.1 surround. Owner and chief engineer Bruce Maddocks first baked the priceless masters in his laboratory-grade mechanical convection oven, and they were then played back on a Studer 827 24-track deck. Pictured are (L-R) Bruce Maddocks and Elliot Scheiner.
